

THE COWBOY CONNECTION

ANDREA'S ANECDOTE

We left for our spring missions trip in March headed south. We had lots of places to go, people to see, and things to do. On April 2&3 we were in Glen Rose, Texas for a NSPRA (Ntl. Sr. Pro Rodeo Assn.) Rodeo. We decided since we were there on Good Friday that we would have a communion service after slack. The service went very well with approximately 30-35 in attendance.

We left on Saturday headed for San Antonio to minister at a sunrise Easter service in front of the Alamo. (pictures where! When we asked for the head count on attendance, she told us they quit counting at 500!(Needless to say this was VERY exciting for us!)

When Jerry wrapped the service up with a call for salvation, he said that so many hands were going up so fast that it of the Alamo. Following this meeting, we drove to Weatherford, Texas for the opportunity to minister at Silverado rodeo in Bernalillo, New Mexico. We had an awesome church service there in the grandstands at the rodeo grounds. The weather again seemed particularly nice that morning. Once again, in this service, we were excited to see some response to the call for salvation. I would like to mention here that Jerry has had a tug on his heart to try and include the roughstock end of the arena more in ministry. To those of you who might not understand this division, I will of involvement of the competitors who are roping with the competitors who ride roughstock. Therefore, Jerry has throughout the remainder of the year.

To give you a quick run down on the progress of progress from the roughstock end! He will throughout the remainder of the year.
